**Registration, Evaluation, Authorization and Restriction of Chemicals. (REACH)
Reach Directive EC 1907/2006**

To whom it may concern,

To best of our ability and knowledge ServTronics has taken and implemented all measures to ensure that we do not distribute any products that intentionally release chemicals or any substances of concern as detailed in the REACH regulation. If applicable we request all certification and paperwork from our vendors showing compliance. For these reasons, ServTronics products are considered articles that are not affected by the REACH Directive and they do not require registration.

The European Chemicals Agency (ECHA) will update the REACH Candidate List about every 6 months. In each update, a number of new Substances of Very High Concern (SVHCs) are added. The total number of SVHCs on the Candidate List is currently set at 219. See the below link for the list.

Thank you for your continued business.

Sincerely,
ServTronics, Inc.
